

Task 6 Evaluation and Reflection Template

Task 6 Study Session Helper Program - Unit 4 - 20%

Task 6 Evaluation and Reflection Template

1. Evaluation Against User Requirements

Requirement	Met?	Evidence
R1	Yes / Partly / No	
R2	Yes / Partly / No	
R3	Yes / Partly / No	
R4	Yes / Partly / No	
R5	Yes / Partly / No	

2. Evaluation Against Programming Requirements

Explain where your program uses each concept.

Programming requirement	Evidence from my product
Variables and suitable data types	
Sequence	
Selection	
Iteration	
Input	
Output	
Validation or error handling	
Internal documentation	

3. Testing Reflection

Explain what your testing showed.

Prompt:

- Which test passed first?
- Which test revealed a problem?
- What did you change after testing?
- What would you test further if you had more time?

4. Validation and User Feedback

What did feedback show about the product?

5. Iteration Log

Change made	Why I made it	Evidence of improvement

6. Strengths

Identify two strengths of your final product.

- 1.
- 2.

7. Limitations

Identify two limitations or weaknesses.

- 1.
- 2.

8. Improvements

Identify two realistic improvements.

- 1.
- 2.

9. SDC Reflection

Which SDC stage helped you most, and why?

Write one paragraph explaining your answer.
